

## BUG CLUB

There appears to be some technical issues both in school and at home when logging on to Bug Club. I have spoken to the technical support team at Pearson's who are responsible for Bug Club and they gave me the following advice.

They said not to use google as your access point to finding Bug Club because when you do it directs you to the Australian site which won't recognise our school code.

So you will need to type in the web address yourself and save it to your favourites or bookmark it.

The address is

[www.activelearnprimary.co.uk](https://www.activelearnprimary.co.uk)

When we did this at school this morning we had no problems logging on at all.

I hope you have the same success at home.

Happy Bug Club Reading!!!

Mrs Morris
